I feel really honored and privileged to write something about my department, Electrical Engineering department. The faculty members of my department are really supportive. They encouraged and motivated me through-out the journey of my college life, whenever I needed them they helped me out. I am really grateful to each one of them. I am really proud of my department.

"....... This four year were the most precious time of my life. Now I can proudly say that I am an Electrical Engineer, from JIS College of Engineering. But this journey would be incomplete without my lovely teachers. They are the pillar of my success. They were my mentor for these years, and were always there helping me for the practical, assignments, projects, etc. My department helped me for becoming the person, that I am today. And the faculties are my role model. Thankyou everyone for being there, and creating the wonderful memory........."
